# The most valuable thing you can do with your child...Read!

‘Children who read for pleasure are likely to do significantly better at school than their peers, making greater progress in mathematics, development of vocabulary and spelling.’

Sullivan & Brown, *Social inequalities in cognitive scores at age 16: The role of reading*, 2013

# Books!

Changing your book?

We listen to the children read 'Read Write Inc' books during every Literacy lesson. We also try to hear each child read individually at least once a week!

If you have any spare time and would like to come into school and listen to children read, please let us know.

# Reading at home

- Reading record format for children to log their own reading in. This will be checked once every week and stamped if the children have read 5 times. Children will then get a sticker to put on their reading owl.

My comments

Adult's comments

Teacher's comments

- Must be filled in each time the child reads and signed at the end of the week.
- Certificates for 10 weeks , 20 weeks , 30 weeks and 40 weeks (during holidays is also counted)
- Oxford owl very useful site, free access to lots of books.
- Better readers tend to be better writers.

# Metacognition

- “Thinking about thinking” – developing children’s skills and attitudes as learners so they can problem solve, be independent and feel equipped to tackle challenges
- Encouraging them to take responsibility for their own learning and to become more self-motivated as a result
- The children are awarded tokens when they are seen demonstrating one of the Metacognitive skills and attitudes.
- Also have a raffle ticket system/ traffic lights.
